3. Commissions and payment

Refer any customer to make a purchase on our website, you will get a commission amount which is calculated based on Commission structure. Commission amount is dependent on order value and not including extra fees (tax etc).

For an Affiliate to receive a commission, you need to specify the payment details on Settings. Payment schedule will be notified on Affiliate Guide page.

Payments will only be sent for transactions that have been successfully completed. Use of the Affiliate Program is subject to a fair use policy which gives Legally Healthy the right to review each and every referral order. Status of commission if displayed in Commission tab, any paid commission will be listed on Payment tab. Transactions that result in charge backs or refunds will not be paid out.

4. Marketing tool

We may share promotional media such as banner, logo or specific collection promotion to you the Affiliate, through our Marketing tool tab. You can download the media or get the HTML embed code in order to share on affiliate channels.

5. Network

If the Network tab is activated, an Affiliate can invite others to become their downline affiliate. If any downline affiliate brings order to the Legally Healthy website, the upline affiliate will also get network commission which depends on merchant settings.

To invite other affiliates into the system, share network link and any other affiliate who click on that link and sign up will become a downline affiliate.

6. Cookie

We use a cookie to track people who have clicked on your link, so they need to be using cookies for us to track them.

If a person doesn't allow cookies or clears their cookies then we can't track them so can't pay earnings on that person's activity.

Cookies day is said on the Affiliate registration form. The tracking day will start from the time a customer clicks on the Affiliate's link or use the coupon. Within the cookie time, every order made by a customer at Legally Healthy's website will automatically result in commissions to the affiliate (There's no need for the customer to click on the affiliate link then).
